

**Caity Haas, LCSW, MHA, Principal Clinical Program Manager, Blue Shield of California**

Caity is a Licensed Clinical Social Worker (LCSW) with a Master of Health Care Administration (MHA) and more than 15 years of experience partnering with healthcare providers to develop and implement behavioral health integration solutions. Her diverse background spans community-based services, hospital systems, and ambulatory care settings, providing her with a comprehensive understanding of healthcare delivery across the continuum of care. Leveraging this experience, she has collaborated with providers to design and sustain population health initiatives, with a particular focus on integrated care models and the Collaborative Care Model (CoCM). Over the past five years at Blue Shield of California, Caity has led the development of a program that supports the expansion of integrated behavioral health models through provider partnership, implementation support, and collaboration with the experts at the AIMS (Advancing Integrated Mental Health Solutions) Center.
